### Our Collective Vision

Our Founder, Padma Bhushan Shri K. J. Somaiya founded Somaiya Vidyavihar on the 9th of September 1959. He later founded the Girivanvasi Pragati Mandal, the K. J. Somaiya Medical Trust, Girivanvasi Education Trust and sister institutions to make great citizens of India and the World. In the words of Swami Vivekananda, "We want that education by which character is formed, strength of mind is increased, the intellect expanded, and by which one can stand on one's own feet." We have now grown into a multi-disciplinary and multi-campus education institution.

Our motto is: ज्ञानादेव तु कैवल्यम् । Knowledge alone liberates. Education liberates from poverty, from hunger. Also liberates one from the attachments that bind us to small-mindedness. Knowledge also provides opportunity. To make the life lived more meaningful. In the service of one's family, one's community, one's समाज, country, and Indeed the world. Bearing in mind that there is no religion other than the life lived in the service of humanity, न मानुषात् परो धर्मः। We will strive to provide access and opportunity to build a more inclusive society.

Our education in any subject will reflect its timeless fundamentals, its current context, and applications. There is so much scientific discovery taking place, at the intersection of fields, of biology, computing, medicine, the social sciences and everywhere else. We will provide students and faculty with an environment to engage this world, to discover new truths, make new applications to create and share knowledge.

Our education will also be experiential. With projects that are 'real' and those that complement the learning inside the classroom. Our students and faculty will be at the cutting edge of change, to incubate companies, to create NGOs, and pursue any field of their passion.

Our education will also be holistic. Sports and physical exercise must be a firm part of the curriculum. For students to develop a love for sports, for recreation, for health, for teamwork, for competition.

Our education will also instill an appreciation for art and culture.

In the Bhagavad Gita, Arjun asks Krishna how is one to control one's mind that is as fleeting as the wind. Krishna responds that it can only be done through practice and discipline. वैराग्येण तु कौन्तेय अभ्यासेन च गृह्यते । We will strive to teach our students to learn to stay calm in our turbulent world.

And our education will also include the ancient Indian tradition, its culture, its depth, and its knowledge. We must keep the connection with our mother tongue and our languages. Languages are storehouses of culture, and the loss of a language takes with it much learning, stored through it over the ages.

Finally, our education will help students lead a full life, to fall in love with life.

### About Somaiya Vidyavihar

Padmabhushan Karamshi Jethabhai Somaiya founded Somaiya Vidyavihar an education trust in 1959, to provide quality holistic education. It was founded on the belief that, education is an important pillar of nation building with the power to change lives, and that it is the duty of the privileged to help provide it to whoever aspires to be educated.

Somaiya Vidyavihar encompasses 34 institutions, with more than 39,000 students and 1,500 faculty. Its educational institutes are spread across two main campuses - a 50 acre complex in Vidyavihar and a 28 acre complex in Sion both located in the heart of Mumbai besides a number of smaller campuses across rural Maharashtra, Karnataka and Gujarat. Currently we offer Degree, Diploma & Certificate courses at Undergraduate, Post Graduate and Doctoral levels. Somaiya Vidyavihar also runs a few autonomous Post-Graduate Courses, Vocational Training Courses and High Schools.

Somaiya Vidyavihar fosters an ecosystem that excels in education, research and service, a place where knowledge is preserved, disseminated and new knowledge is created. It is known as much for its Science, Technology, Medicine, Engineering, Management, Social Sciences and Commerce programs, as for its programs for academic studies in various Faiths and Cultures of India.

Shri. K.J. Somaiya guided Somaiya Vidyavihar until 1999, his son Dr. S.K. Somaiya was at the helm of affairs till 2010. Today Shri. Samir Somaiya, a Cornell University and Harvard Business School alumnus is the President.

Our motto ज्ञानादेव तु कैवल्यम् | Knowledge alone liberates remains the bedrock, as we strive to expand and continuously innovate our education.

#### Academic Year 2020-2021: Navigating Education in the Age of COVID-19

As we embark on the academic year 2020-2021, we find ourselves in unprecedented times, with the shadow of COVID-19 looming large over the world. In these challenging circumstances, let us draw inspiration from the wisdom of great thinkers throughout history, who remind us of the enduring value of education.

The words of Albert Einstein serve as a guiding light in our educational journey: "Education is not the learning of facts, but the training of the mind to think." In this era of online education, we have been compelled to rethink traditional paradigms. While we may not be within the walls of our physical classrooms, our commitment to imparting knowledge remains unwavering.

Online education is not just about the transfer of information; it's about adapting to the new normal while retaining the essence of education. Our college, K.J. Somaiya College of Arts and Commerce, has strived to ensure that this transition is as smooth as possible. We understand that the journey has been challenging for both students and educators. Still, we firmly believe that this adversity has offered us a unique opportunity to embrace innovative teaching methods and to reinforce the importance of adaptability in the face of change.

As Mahatma Gandhi aptly noted:

"Live as if you were to die tomorrow. Learn as if you were to live forever."

Just as reading and studying were considered invaluable, these virtues remain essential in our digital age. Online learning, when approached with diligence and dedication, can help students grow and explore the world from the confines of their screens. In a world where human connection is more crucial than ever, understanding and empathy become vital tools in bridging the gaps created by physical distance.

At K.J. Somaiya College of Arts and Commerce, we have always aimed to foster human values and curiosity for knowledge. We recognize that the depth of knowledge is what truly enriches one's character. Our commitment to creating an environment that nurtures personal growth and academic excellence continues to guide us.

In this age of COVID-19, the world has been forced to reassess its priorities. As we step into this academic year, let us reflect on the impact we can have, not just on ourselves, but on the larger community. Let us ask ourselves: "Have our virtual interactions enriched the online learning experience for others today? Will our words of encouragement and support be remembered? Have we, through our actions and words, kindled hope in a world facing uncertainty?" While the pandemic has intensified the competition in the field of education, our college remains steadfast in its commitment to uniqueness. We believe that questioning ourselves and seeking answers is the path to academic excellence.

As we navigate the challenges of COVID-19, we look forward to a future where health, joy, and prosperity prevail. We may have limped through the pandemic, but we are poised to take strong strides into a world of hope and learning.

## CONCEPT OF CREDIT SYSTEM

- Involves breaking down the curriculum into measurable units that can be combined to get a degree / diploma.
- A 'credit' is generally a 'value' used to measure a student's work load in terms of learning time required to complete course units, resulting in learning outcomes.
- Credit is used in higher education to summarize and describe an amount of learning.
- The number of credits awarded to a learner is determined by Credit Value or Credit Points assigned to a particular course.
- It is a way of expressing the 'learner's workload'. (Student's)
- It affords more flexibility to the learners allowing them to choose interdisciplinary courses. One (01) Credit is thirty (30) learning hours. Credits once gained cannot be lost.

## TERMINOLOGY USED IN CREDIT SYSTEM

- **Programme:** A programme is a set of courses that are linked together in an academically meaningful way and generally ends with the award of a Certificate or Diploma or Degree depending on the level of knowledge attained and the total duration of study. E.g. Certificate in office Computing, Diploma in Journalism, B. Com, M. Sc. M. S.W. etc. are the 'Programmes'.
- **Course:** A course is essentially a constituent of a 'programme' and may be conceived of as a composite of several learning topics taken from a certain knowledge domain, at a certain level. A 'course' in simple terms corresponds to the word 'subject' used in many Universities.
- **Module or Unit:** A module or Unit is a part of the course which may be studied in conjunction with other learning modules or studied independently.
- **Credit Points:** This has reference to the 'Workload' of a learner and is an index of the number of learning hours deemed for a certain segment of learning. The course may be assigned anywhere between 4 to 8 credit points wherein 1 credit is equal to 30 learning hours.
- **Credit Completion or Credit Acquisition:** - It may be considered to take place after the learner has successfully cleared all the evaluation criteria with respect to a single course.
- **Credit Bank:** - The process of accumulating Credits over a period of time, leads to the idea of a 'Credit Bank'. Conceptually, a Credit Bank in simple terms refers to stored and dynamically updated information regarding the number of Credits obtained by any given student along with the details regarding the course/s for which Credit has been given, the course-level, nature, etc.
- **Credit Transfer:** - Credit Transfer means that credits earned at one institution for one or more courses under a given programme are accepted under another programme either by the same institution or another institution.

- **Performance Transfer:-**When a student who has successfully completed a certain academic programme, is allowed to transfer his past performance to another academic programme having some common courses, performance transfer is said to have taken place.
- **Course Exemption:-**The student who has already completed one of these academic programmes is then allowed to skip these 'equivalent' courses when registering for the new programme. He is then 'exempted' from 're-learning' the common or equivalent content area and from re-appearing for the concerned examinations.
- **Block Transfer:-** This refers to a group of courses, such as a completed certificate or diploma programme that are accepted for transfer of credit into a degree programme.
- **Shelf Life:** - This has a reference to the time duration for which the content of a given course is relevant and is directly linked with the obsolescence of knowledge in a certain field. Some institutions have time limits for granting credit transfer.
- **Transfer Agreement:** - This is an agreement that must be made between two institutions (a sender and a receiver) that specifies how the sending institution's course or programme will be accepted (for transfer of credits) at the receiving institution.

\* These terminologies will be incorporated in the existing ordinances in due course by placing it before the appropriate authority.

### **ALLOCATION OF TIME PER CREDIT**

The time duration per credit into two parts:

- 1) Approximately fifty percent of the time will be spent on class room instructions including practical as prescribed by the University.
- 2) Rest of the time spent for assignments, Projects, journal writing, case studies, library work, industrial visits, attending seminars / workshops, preparations for examinations etc. will be considered as notional hours.

### **PHILOSOPHY OF CREDIT ASSESSMENT**

Compulsory Courses	=	4 credits per course
Core / Special Courses	=	3 credits per course
Applied Components	=	3 credits per course
